Here's the final version that was FAX'd at 4:30 PM. on Wed.
Call me when you receive this for the latest. I talked w/ Tim
Plaza at 4:50 PM. on Wed (after I talked w/you). Katy W.

Memorandum

To : Lee Deter, Deputy Director
Transportation Management

Date : November 10, 1993
File : Rte. 127

Attn. : Bob Coleman, Division Chief
Division of Maintenance

From : DEPARTMENT OF TRANSPORTATION - District 9
Lewis K. Wood, District Director

Subject : Working Committee - Selection of Alternate Routing for the Shipment of Radioactive Materials

We understand that Tim Plaza, Office of Emergency Management, was selected to represent Caltrans on a Working Committee organized by the California Highway Patrol. The purpose of the committee is for the selection of preferred highway routes for controlled quantity shipments of radioactive materials.

We have some concerns regarding the adequacy of Route 127 should it be selected.

Katy Walton of our Transportation Planning Department talked with Tim Plaza on November 9, 1993 about some of these concerns. He related to her that the committee had one meeting on August 30, 1993. He said no specific proposed routing or concerns were discussed. Then he received a letter from the CHP thanking him for his participation. We would like to know if there will be further consultative meetings, if the Notice of Proposed Rule Making, to be issued this month, designates routing, and if we will have other opportunities to express our concerns? Does Mr. Plaza's participation in the one meeting represent the only review and comment opportunity for Caltrans, and does the "no comment" at that meeting indicate concurrence? We appreciate if you would get a clarification on these questions. Thank you for looking into this.

Sincerely,

LEWIS K. WOOD
District Director
District 9
